

Summarized assessment:

In the tests conducted by us, the 2-component disinfectant **MEIKO® ACTIVE SPOROSAN® 8100 A+B** in a 100.0 % product test concentration in the Meiko MEIKO TopLine M3 washer showed virucidal activity against the Murine parvovirus Minute virus of mice strain Crawford, after 30 s under clean conditions and at a chamber temperature of 20 °C—25 °C.

PD Dr rer. nat. Maren Eggers
Head of the disinfectant testing
